FOUR HORSES KILLED

Last Saturday was not a very bright day for the C. P. R.

The eastbound express got into trouble when it ran into a bunch of horses, a few miles west of town, on Saturday night and killed four of them. About 40 horses had wandered on the track and were caught by the train, in a deep cut, with little chance of escape. The train was delayed about 45 minutes.

The westbound express, on Saturday was stuck in a snow-drift, near Kerrobert, and was delayed 18 hours, reaching here about 2 o'clock on Sunday morning.

There will be a meeting of the Ratepayers of Ward 5, R. M. of Stewart, No. 302, on Saturday March 23rd, at 2 p.m. in Gregerson School, for discussion of municipal affairs and better roads. T. H. Nond, Councillor.

GRADUATED WAR TAX ON INCOMES

If the income war tax law, about to be applied, did nothing more than cause a national stock-taking, it would serve a most useful purpose.

The taking of an inventory of one's resources invariably induces a desire to save and a desire to save when translated, as it very frequently is, into a determination to save, means getting on with the war, as well as happiness all around. This process; first an inventory of one's resources, then a desire to save, applied to every unmarried person, or widow or widower without dependent children, receiving an income of \$1,500 and over, and to all other persons receiving an income of \$3,000 and over, will unquestionably result in a large proportion of cases, in a determination to save. And that means more general prosperity and renewed national strength.

But a national stock-taking is only incidental, of course, to the chief purpose of the income war tax, which is to provide revenue for the prosecution of the war in as equitable manner as possible. The tax is to be graduated, according to one's ability to pay. Those who are in receipt of only a living wage or salary will not be called upon to pay; those enjoying the highest incomes will be called upon to pay the greatest amounts, and the great body of income receivers between, will be called upon to pay in their due proportion.

Moreover, the purpose of the act is to distribute the burden equitably among all classes. By way of illustration, the farmer will be required to add to the value of his actual income, the value of the home-grown products which his own family consumes. This places the farmer on a plane with the salaried man, the value of whose services is wholly represented in the income received against which he must charge all his living expenses.

Canada has established a war record that is the envy of the World. It is certain that the Canadian people will run true to form in answer to this latest call of their war government.

Mrs. W. Ducklow is a visitor in town. She is accompanied by her mother.

The Galvin Lumber Yards have purchased an additional 50 foot frontage, to the north of their present yards.

Mr. FARMER!

The DUTY has been taken off our TITAN TRACTOR, so now the cost of our 10-20 TRACTOR is not as much as six good horses are worth. And one man can do twice as much work with the TRACTOR as he can with horses.

Horses, and oats to feed them, are high and scarce. Farm labor is a very uncertain question. Let our 10-20 Titan Tractor answer this question for you. It has proved ITS RELIABILITY. BUY NOW!

BUSY BIDEFORD

How dry Alberta has become was amusingly illustrated the other day at the Drug Store, when a noted thirsty customer inquired what certain bottles contained. On being informed that they were rum and quinine he instantly tried one and when he had finished it he remarked he could not taste any quinine, but that he tasted the rum alright. In blissful ignorance he smacked his lips, no one informing him that it was buy rum and quinine, in other words, just a hair wash he had swallowed.

Notwithstanding the severe cold, this winter, the cattle are coming thro in good condition. The Government Inspector, when he was here last summer, seemed to think this was no cattle country, but the way they come thro shows that they could not be beaten, even in the foothills.

Note and Comment

"Hoarding" is the crime of selfishly taking care of one's own skin to the detriment of others, either in the warring lands or at home. Buying too much for immediate cellar-packing in Canada also imposes a burden on the poorer classes in the Dominion. The railway difficulties are especially great this winter; obstacles in distribution of foodstuffs are adding to the shortage. Moreover, hoarding by people who lack proper facilities for storing may easily result in heavy waste. For this reason especially, public opinion should be aroused against the practice.

The following rules will now govern at the local post office: No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it, have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your box rent is due and unpaid, don't pay any attention to the notices he puts out as that is what he is there for. If your friends don't write rave at the postmaster, he is to blame. If he tells you no, put a grieved look and say there should be some. He is probably hiding your mail for the pleasure of having you call for it. Ask him to look again. If you are buying stamps, make him lick them and put them on, that's his business.

The following schoolchildren's answers came out in a recent examination, in England:

"Denmark is washed by the Catty Cat & the Scraggy Hawk."

"The Seven Great Powers of Europe are, gravity, electricity, steam, gas, flywheels, motors, and Mrs. Lloyd George."

"Queen Elizabeth was tall and thin; but she was a stout Protestant."

"During the Interdict in John's reign, births, marriages, and deaths were not allowed to take place."

"Henry VIII gained the title 'Fidel Defensor' because he was so faithful to his queen."

"A Kelt is part of a Scotchman's dress."

"A vacuum is an empty space full of nothing but Germans (germs)."

"A vacuum is an empty space with nothing in it; the Pope lives in one."

"A Conservative is a sort of greenhouse where you look at the moon."

THE KNITTERS

A famous knitter is Grandma Cox; And Barbara knits at her knee; While Dodo also knits and rocks—Sweaters, helmets, wristlets; socks—For the soldiers over the sea.

They've joined the army of womankind And their needles flash in the sun—The army of women of just one mind, The knitting women who stand behind Our men till the war is won.

There's a million women knits today In home and office and shop; They even knit in church, folks say, And the needles fly while the parsons pray.

For the knitting must never stop.

Some knit for soldier boys unknown In the trenches over the seas; For they have no heroes of their own, No lovers in the shell bound zone—And the saddest of all are these.

But most of them pray for their own as they knit,

For lover, and son, and friend—For their very own they must do their bit.

And every stitch carries love with it, And the prayers that never end.

Then how can we help but win the fight When even our children leave their play

And their needles like lances flash in the light.

And a million women from morn till night

Keep knitting as they pray!

FOUR HORSES KILLED

Last Saturday was not a very bright day for the C. P. R.

The eastbound express got into trouble when it ran into a bunch of horses, a few miles west of town, on Saturday night and killed four of them. About 40 horses had wandered on the track and were caught by the train, in a deep cut, with little chance of escape. The train was delayed about 45 minutes.

The westbound express, on Saturday was stuck in a snow-drift, near Kerrobert, and was delayed 18 hours, reaching here about 2 o'clock on Sunday morning.

There will be a meeting of the Ratepayers of Ward 5, R. M. of Stewart, No. 302, on Saturday March 23rd, at 2 p.m. in Gregerson School, for discussion of municipal affairs and better roads. T. H. Noad, Councillor.

GRADUATED WAR TAX ON INCOMES

If the income war tax law, about to be applied, did nothing more than cause a national stock-taking, it would serve a most useful purpose.

The taking of an inventory of one's resources invariably induces a desire to save and a desire to save when translated, as it very frequently is, into a determination to save, means getting on with the war, as well as happiness all around. This process; first an inventory of one's resources, then a desire to save, applied to every unmarried person, or widow or widower without dependent children, receiving an income of \$1,500 and over, and to all other persons receiving an income of \$3,000 and over, will unquestionably result in a large proportion of cases, in a determination to save. And that means more general prosperity and renewed national strength.

But a national stock-taking is only incidental, of course, to the chief purpose of the income war tax, which is to provide revenue for the prosecution of the war in as equitable manner as possible. The tax is to be graduated, according to one's ability to pay. Those who are in receipt of only a living wage or salary will not be called upon to pay; those enjoying the highest incomes will be called upon to pay the greatest amounts, and the great body of income receivers between, will be called upon to pay in their due proportion.

Moreover, the purpose of the act is to distribute the burden equitably among all classes. By way of illustration, the farmer will be required to add to the value of his actual income, the value of the home-grown products which his own family consumes. This places the farmer on a plane with the salaried man, the value of whose services is wholly represented in the income received against which he must charge all his living expenses.

Canada has established a war record that is the envy of the World. It is certain that the Canadian people will run true to form in answer to this latest call of their war government.

BUSY BIDEFORD

How dry Alberta has become was amusingly illustrated the other day at the Drug Store, when a noted thirsty customer inquired what certain bottles contained. On being informed that they were rum and quinine he instantly tried one and when he had finished it he remarked he could not taste any quinine, but that he tasted the rum alright. In blissful ignorance he smacked his lips, no one informing him that it was bay rum and quinine, in other words, just a hair wash he had swallowed.

Notwithstanding the severe cold, this winter, the cattle are coming thru in good condition. The Government Inspector, when he was here last summer, seemed to think this was no cattle country, but the way they come thro shows that they could not be beaten, even in the foothills.

Note and Comment

"Hoarding" is the crime of selfishly taking care of one's own skin to the detriment of others, either in the warring lands or at home. Buying too much for immediate cellar-packing in Canada also imposes a burden on the poorer classes in the Dominion. The railway difficulties are especially great this winter; obstacles in distribution of foodstuffs are adding to the shortage. Moreover, hoarding by people who lack proper facilities for storing may easily result in heavy waste. For this reason especially, public opinion should be aroused against the practice.

The following rules will now govern at the local post office:

No letters given out until they have been received. If you don't get a letter or a paper on the day you expect it, have the postmaster look through all the boxes and down the cellar also. It ought to be there somewhere and he likes to hunt for it just to please you. If your box rent is due and unpaid, don't pay any attention to the notices he puts out as that is what he is there for. If your friends don't write rave at the postmaster, he is to blame. If he tells you no, put a grievous look and say there should be some. He is probably hiding your mail for the pleasure of buying you call for it. Ask him to look again. If you are buying stamps, make him lick them and put them on, that's his business.

The following schoolchildren's answers came out in a recent examination, in England:

"Denmark is washed by the Catty Cat & the Serenigg Haek."

"The Seven Great Powers of Europe are, gravity, electricity, steam, gas, flywheels, motors, and Mrs. Lloyd George."

"Queen Elizabeth was tall and thin; but she was a stout Protestant."

"During the Interdict in John's reign, births, marriages, and deaths were not allowed to take place."

"Henry VIII gained the title 'Fidel Defensor' because he was so faithful to his queen."

"A Kelt is part of a Scotchman's dress."

"A vacuum is an empty space full of nothing but Germans (germs)."

"A vacuum is an empty space with nothing in it; the Pope lives in one."
"A Conservative is a sort of greenhouse where you look at the moon."

THE KNITTERS

A famous knitter is Grandma Cox,
And Barbara knits at her knee;
While Dodo also knits and rocks—
Sweaters, helmets, wristlets, socks—
For the soldiers over the sea.

They've joined the army of womankind
And their needles flash in the sun—
The army of women of just one mind,
The knitting women who stand behind
Our men till the war is won.

There's a million women knits today
In home and office and shop;
They even knit in church, folks say,
And the needles fly while the parsons pray.

For the knitting must never stop.

Some knit for soldier boys unknown
In the trenches over the seas;
For they have no heroes of their own,
No lovers in the shell bound zone—
And the saddest of all are these.

But most of them pray for their own
as they knit,
For lover, and son, and friend—
For their very own they must do their
bit,
And every stitch carries love with it,
And the prayers that never end.

Then how can we help but win the fight
When even our children leave their
play
And their needles like lances flash in
the light,
And a million women from morn till
night

Keep knitting as they pray!
